

Local telco makes NBN switch easy

Commworx is a local telecommunications company which has partnered with the National Broadband Network (NBN) rollout and committed to helping our local community get on board.

Locally-owned and Hunter based, Commworx was founded in 2013 by Directors Adam Dobb and Cheyne Lennon. Both founders had come from extensive electrical backgrounds.

The telecommunications company is not only an internet service provider but is also contracted to provide civil engineering works for the network's construction.

With more than 60 employed at the company's headquarters in Beresfield, Commworx is making NBN conversion as easy as possible for businesses and residences by providing optimal

customer service, construction services and reliability all over New South Wales.

Lambton and New Lambton are just two of the local areas that is experiencing the benefits of the fast, reliable service from Commworx.

NBN service is quickly spreading around the Newcastle suburban area and continues to grow.

Commworx is involved with the community by partnering with the Newcastle Knights as an employment partner. Commworx is also passionate about charitable giving by supporting the Starlight Foundation. Get in contact with Commworx today to discuss your connection to the NBN. All enquiries can be directed to www.commworx.com.au
